

PAST LIFE READING – DID YOU MEET HIM?

By Psychic Crystal

Your Past Life Connection with Your Soulmate

When I entered your energy field, a vision from a past life emerged almost instantly – as if the universe had been waiting for you to ask this very question. Yes, you have met him before. Not once. Not twice. But in multiple lifetimes. The bond between you and your soulmate is karmic, spiritual, and eternal. The love you seek now is not new – it's ancient.

*I saw a flicker of lives shared, and here
is what was revealed to me...*

Your First Lifetime Together – The Candlelit Encounter

Time period: 18th century

Place: A countryside town in France or Northern Italy

*Scene: A small candlelit music salon – velvet curtains,
faint violin playing in the background.*

You were dressed in soft lilac tones, a book in your hand, withdrawn from the crowd. He entered the room – taller than most, confident but gentle. When your eyes met, the noise around you faded. He recognized you first. Not your face... but your soul.

You didn't speak that night – but a week later, he returned just for you. The connection blossomed quickly, but duty and distance tore you apart. Still, neither of you ever fully moved on.

*That life ended with a silent promise:
"We'll find each other again."*

What Your Souls Were Meant to Learn

Every shared life brings a soul lesson. That one taught you the power – and the pain – of divine timing. You weren't meant to be forever in that era... but you were meant to awaken each other.

Your soul carried three karmic imprints from that life:

- 1. Yearning without closure*
- 2. Trust in timing, even when it hurts*
- 3. Emotional intensity in short encounters*

*If you've felt inexplicably drawn to romantic stories of "almosts" and "the one that got away"... this is why.
That energy lives within you.*

How It Affects Your Present Life

You may notice the following patterns in this life:

- *You're magnetically drawn to certain people, but something always feels unfinished.*
- *You long for a connection deeper than the physical – something spiritual, intuitive.*
- *You sometimes dream of places you've never been but feel familiar.*
- *You feel like you're "waiting" for someone you can't fully describe.*

That someone is him. The one from before. The face in your soulmate sketch is not just of your future... it's the echo of your past.

Signs of Soul Memory in Your Current Life

*Here are signs that you've already
crossed energetic paths again:*

- *Deja vu during a conversation or a
simple touch.*
- *An instant connection that makes no
sense logically.*
- *You know someone's voice or
mannerisms before you've had time to
learn them.*
- *Dreams where you're deeply in love
with someone whose face you can't
quite remember.*

These are soul flashbacks.

Ritual: Awaken the Memory & Accelerate Reunion

You can call that energy closer by performing this ritual under the moonlight:

Items needed:

- 1 white candle
- 1 small mirror
- A quiet space where you won't be interrupted

Steps:

1. Light the candle and place the mirror in front of it.
2. Gaze into the flame for 1 minute, breathing slowly.
3. Say aloud: "If we met before, may we meet again.
My soul is open. My heart remembers."
4. Close your eyes and visualize a past life moment – even if you don't see anything, trust the feeling.

Do this for 3 consecutive nights. Write down any dreams or emotions that arise.

Final Message from Spirit

"The time between lives is not the end. Love always returns. You are closer than you think."
